ID Tag Alitag

Product information

The ID Tag ALITAG provides a display of the slings' mechanical constraints and identification material. It consists of an aluminium plate and a galvanized or stainless steel cable crimped at one end. This expert crimping, made using a press or TAGTOOL, is permanent and ensures technical information about the lifting accessory is never lost. LIFTEUROP offers several specific solutions for sustainable micro-percussion marking, laser engraving and adhesive labelling.

The ID Tag ALITAG is readily available, even in large volumes
