ROV Shackle D Guided Pin Green Pin® P-5362D

Product information

The Green Pin® Guided Pin ROV Shackle D is a shackle with a guiding tube with a D-Handle developed for release and retrieve operations with a remotely operated vehicle (ROV). The guiding tube ensures a 100% straight alignment of the shackle pin towards the shackle eyes which makes remote assembly and disassembly much easier. A lifting eye on the guiding tube also helps the ROV operator to balance the shackle and guarantees that the pin cannot fall out of the tube. The Green Pin® Guided Pin ROV Shackle D also improves safety through its innovative locking system which prevents the shackle pin from accidentally turning counterclockwise and coming loose.The shackle is available with a D-handle or fishtail-handle. The Green Pin® Guided Pin ROV Shackle D is delivered completely assembled and is available in a range with a working load limit from 12 up to 55 ton.

Certification on request: 2.1, 2.2, 3.1, MTCa
