Harness HT55

Product information

Chest anchoring

Rear / dorsal D-ring

The HT55 harness features best-in-class versatility.
It is particularly well suited for building work (ladders, scaffolding, roofing, etc.) thanks to its sternal attachment point.
Comfort is ensured with the X-Pad comfort backrest, the mountaineering style leg loops and the floating side buckles which allow the webbing to slide when moving to increase comfort.

• **1 dorsal attachment** point with a large ring to facilitate easy attachment of PPE.
• **1 sternal attachment** point: recommended for work on an incline or in a confined space.
• **Adjustment buckles**: non-removable adjustment bars that prevent slipping of the strap.
• **1 comfort pad X-pad**: breathable and flexible it reduces worker fatigue by more evenly distributing the load.
• **2 comfort leg straps**: avoids uncomfortable pulling and tugging.
• **2 link bars**: leaves space at the top and bottom of the harness
• **1 sub-pelvic strap** for increased comfort
• **4 fall indicators**: Improves the safety of the harness.

• **AUTOMATIC buckles** in option
