Periodic General Inspection of Lifting Accessories

Product information

The Labour Code requires employers to periodically check lifting accessories. In the event of failure to comply with these controls, the employer is exposed to risks of bodily injury and property damage, financial penalties, and judicial and criminal proceedings up to 5 years in prison and a 75,000 euros fine.

At Traction Levage, to ensure the safety of users and smooth lifting operations, we inspect and test your lifting accessories.

Would you like to have your lifting accessories checked? Then ask our teams for a quote via our website
