Awareness program Wire Rope : Selection Criteria and Instructions for Use

Product information

Misinterpretation of the condition of a wire rope and improper use of a wire rope for lifting operations can lead to a decrease in productivity and, at worst, to a major incident.

At Traction Levage, we offer an awareness program that has been provided for more than ten years and can be adapted to your expectations and your sector of activity.

This training is provided by our Technical Manager and can be delivered both on our offices and on site.

Do you want to reduce your risks and costs? Then ask our teams for a quote via our website
