

## Management and Traceability Solution : « RFID GestAG® »

### Product information

To efficiently manage your lifting equipment and accessories and ensure the safety of your employees, the GestAG® is the ideal RFID solution to ensure the traceability of your lifting products.

At Traction Leverage, with our GestAG® RFID solution, we can ensure:

- The provision of our integrated application and we offer support associated with an inspection body for all periodic general audits.
- The creation of a customized application adapted to your needs with the help of our IT partner.

This solution is therefore modular and adaptable to the management and control of your accessories and lifting devices.
