RFID Chip PRFID POWERTEX

Product information

The PRFID (POWERTEX Radio-Frequency IDentification) chip is intended to be used for quick and easy asset control. The chip has a unique ID-number making it possible to connect the chip to a certain product, using an asset control program like CertMax+ to plan that inspections etc. are carried out in time.

Adhere the chip on the product so it can be read by the RFID scanner

Features:

- RFID chip type: Self-adhesive token
- Operation frequency: HF – 13,56 MHz
- Reading distance: Min. 25 mm
- Adhesive: 3M 9495LE foam glue and anti-metal layer
- Protection class: IP66
