Steel Wire Rope 6x19M-WSC BLACK

Product information

Steel Wire Rope 6x19M-WSC Black is a galvanized steel wire rope with an electrophoretic black finish, designed for stage construction, theatres, and entertainment environments. It provides the strength and flexibility of a standard 6x19M-WSC construction while reducing visual distraction where rigging and suspension components should remain unobtrusive.

Best used for:

- Theatre, stage, and performance venue rigging applications.
- Installations where wire rope visibility should be minimized.

Product benefits:

- Black electrophoretic finish reduces visual impact on stage.
- Galvanized steel construction helps resist corrosion.
- 6x19M-WSC construction balances flexibility and handling.
- Suitable for stage and theatrical rigging applications.
- Black finish combined with galvanized protection for longer service life
