

Round sling - Double sleeve, middle stitch

Product information

General: Round sling – Double sleeve, middle stitch

This round sling is particularly recommended for the metal frameworks lifting.

The middle stitch gives a better capacity to the fibres that are grouped together to support the effort uniformly.

Flexible endless sling with double sleeve, middle stitch.

Configuration: Endless sling including a bearing fibre core in textile wire totally protected in a double woven sleeve.

Label informations : manufacturer's symbol, working load limit (WLL), effective working length, CE marking, batch number, handling instructions.
