Roundslings FORANKRA R1 Blackline

Product information

The Blackline sling is an indispensable piece of stage equipment, particularly appreciated in theatres, on musical stages and in all kinds of stage installations. Its discreet black colour makes it almost invisible during performances, which helps to maintain aesthetics and focus the audience's attention on the artists and scenery.

Advantages:
Invisibility on stage: The black protective sleeve makes the sling almost invisible against the stage background, helping to maintain the aesthetics of the performance.
Durability: High-quality backing yarn and seamless sleeve ensure long-lasting and safe use.
Versatility: Ideal for use in theatres, concert stages, television and film productions, as well as stage installations at events and shows.
Protection: The protective sleeve protects the sling from mechanical damage, increasing its service life.

Construction: Backing yarn covered with a 'seamless' black protective sleeve.
Stretchability under working load: 2-3%.
Length tolerance: Nominal length (EWL) ±2%.
