Wire Rope Snatch Block EH

Product information

The single-sheave pulleys from the EH range are primarily intended for temporary lifting or cable traction installations, requiring quick setup and/or removal of the pulley. They can be anchored to a fixed or mobile point that has the necessary resistance to the applicable force.

The ease of setup and removal of these pulleys, along with the availability of a becket, make them suitable accessories for reeving and changing the direction of wire ropes.

The pulleys are equipped with a swivel hook that ensures proper orientation of the pulley in relation to the wire rope.

Wire rope snatch block fulfill the Machinery Directive 2006/42/EC.
